USAF Update: Chlamydia Screening

**Col Michael Snedecor
Chief, Preventive
Medicine**

U.S. AIR FORCE

U.S. AIR FORCE

Female Accession

~~Chlamydia Screening~~

- Policy memo signed 7 Jul 05 mandating accession screening of females by 1 Dec 05.
- Accession sites received end-of-year funds to begin
- Direct accessions (ROTC, etc) will be screened at first duty station during in-processing screening
- Anticipate all sites will be up and running by 1 Dec 05

U.S. AIR FORCE

Chlamydia Screening Surveillance

- Most AF chlamydia tests performed at AF Reference Lab at AFIOH
- Looking at whether this dataset is comprehensive enough to build a measure and action lists for bases on periodic chlamydia screening
- Using USPSTF guidelines to develop “flags” for PIMR CPS page
 - Used by PCM teams to track CPS
 - Chlamydia flag to be set to yearly for <25 years of age
 - Will use AFIOH data or manually entered date
